Once you have uploaded the plugin, activate your plugin in **Plugins > Installed plugins**.

After installing and activating the plugin.

Welcome screen for save for later plugin.

Getting Started

Once you have installed the plugin, you have to visit **Banner Management for WooCommerce** to use it. You will get this interface below information.

The screenshot displays the 'Banner Management Settings' interface. On the left is a dark sidebar with navigation options like Dashboard, Posts, Media, Pages, Comments, WooCommerce, Orders, Coupons, Banner Management, Reports, Settings, System Status, Add-ons, Products, Appearance, Plugins, Users, Tools, Settings, and Collapse menu. The main content area has a 'Save Changes' button in the top right. Below it, the 'Banner Management Settings' section explains that banners can be added for page-specific, category-specific, and welcome page-specific. It then provides instructions for uploading a custom banner to product category pages. The 'Page specific banner' section contains four dropdown menus: 'Banner for shop page (Enable)', 'Banner for cart page (Enable)', 'Banner for checkout page (Enable)', and 'Banner for thank you page (Disable)'. The 'Category specific banner' section explains that banners can be uploaded to the top of product category pages and includes a preview of the 'Edit Product Category' page. Red boxes and arrows in the preview highlight key features: 'Click and upload banner image', 'Click and remove banner image', 'Add banner image link', and 'Enable/Disable display banner image in category page'.
